ABOUT ME:

I am third year student pursuing information technology(it) @Bvoce-Delhi Campus. I am always ready to have a new experience, meet new people and learn new things. I find the idea for creating value for people and impacting the world through my work gratifying.

with a strong foundation in C++ and SQL, I have honed my skills in these languages, allowing me to create efficient and effective software solutions. I enjoy the logical and problem-solving aspects of programming and am always eager to learn and adapt to new technologies and languages.

alongside programming, i have delved into the realm of web development. i have acquired knowledge and experience in creating responsive and visually appealing websites using HTML, CSS, and JAVASCRIPT. I find joy in bringing ideas to life on the web and crafting user-friendly experiences.
